2. Claims 1-13 and 15-40 have been cancelled in this amendment.
3. Claim 14 is pending in this action.
4. Claim 14 is allowed.

Allowable Subject Matter

Claim 14 is allowed.

The following is an examiner's statement of reasons for allowance:

As per claim 14: the prior art of record does teach or fairly suggest the technique of combining a sound signal, generated by a radio frequency phase-lock synthesizer adapted to produce sideband frequencies, to a voice signal/call, as a modulation components, so as to interrupt a telephone call, as recited in claim 14. According to the specification the interruption-sound is a sound that is generated to deliberately, but without offending the other party, degrade and interrupt a telephone call that is not desirable to continue by a party in a call (see summary). Hence, the allowance is based on the meaning of the "interruption-sound" as disclosed in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
